

Ceiling Range Hoods

Whether your kitchen design calls for an ultra-slim contemporary stainless-steel hood, a more traditional design, or a custom glass accent color .

Streamline glass front panels can be made in ANY of over 200 RAL Colors or can be made in the same finish as your appliances or cabinetry. Streamline can customize your colored glass front with your choice of silkscreened art in photos, stock floral designs or other Art Deco type designs from Streamline. The silkscreened glass panel can be changed at any time in the future with new photos.

Streamline Hoods

***Streamline Hoods** is pleased to announce that beginning August 2014 we will also be offering a line of lower priced range hoods for customers looking for range hoods that are extremely affordable in these tough economic times. This new line is also brought in from overseas (not China) and is a very high quality product.*

See the NEW Products below and watch for new additions on this website as we build this Product Line to 40- 50 hoods.

As one of the most important rooms in the house, your kitchen is home to some of the worst air quality, due to the pollution caused by the cooking process.

*The mix of grease, steam, odors, and smoke spread throughout your kitchen as well as your entire house, eventually settling on surfaces with a sticky, smelly, film. You can solve these problems today, by purchasing a **Streamline Hood**.*

The Streamline Range Hood works for you, by capturing all of the smoke and odors. Our powerful blower motors carry the air pollution away from the source, before it has a chance to contaminate your home.

About Us

Design excellence, customization and superior craftsmanship separate Streamline Hoods from the competition. Streamline Hoods is committed to providing design and innovation along with the highest quality products for the kitchen, builder, remodeling, architectural and design industries.

Over the past several years, trends show that homeowners are looking for unique products that show their taste in style. To respond to the demand for practical and innovative range hoods Streamline offers a new concept based on State-of-the-Art designed range hoods that offer the highest quality and performance in your kitchen.

We also have great appeal in the Green Movement. In addition to the beauty of our hoods, we provide the highest levels of energy efficiency with LED lighting savings, consumption savings and noise reduction.

ULTRA Modern Kitchen and Ventilation Hoods

Combine function and style with modern kitchen ambiance using stainless steel ventilation hoods from Streamline.

Design

Streamline Hoods has a unique vision of modern State-of-the-Art European Design and advanced technology that features many unique color and glass designs, high-quality materials, and superior craftsmanship.
